ANDROID DEVELOPER ENGINEER

FINDORRA CREATOR 53.16M USER, 85.5M APP DOWNLOAD

PERSONAL DATA

Gender:	Male	Nationality:	Egyptian
Place of Birth:	Muscat, Sultanate of Oman	Date of Birth:	19-March-1990
Military Status:	Completed at (1-June-2015)	Marital Status:	Single
ID:	South Africa ID (PR)		

SUMMARY

A motivated software engineer with experience in creating new mobility service APIs designing, testing and database development to meet customers needs using various technologies and tools in an agile environment with strong development tools and automation skills.

CAREER OBJECTIVES

Looking for a software developer position where I may be able to use well-honed skills in planning, coding and testing in order to develop state-of-the-art software solutions for the company's clientele. A good opportunity for me would be the chance to work among creative team members that prioritize code quality, learning new things and gaining valuable experience

Android Growing at Facebook London

Hi Moataz,

I'm [redacted], one of the recruiting team here at Facebook. Your profile really stands out as a potential match for several of our Android teams here. We are actively recruiting for positions here in London and was wondering if it might be a good time to hear about our projects?

[redacted]  • 7:43 PM

Nearly half the world uses our products and you can help us build them - [redacted] at Meta

Hi Moataz,

My name is [redacted], I'm a Software Engineering Recruiter for Meta (Facebook). We are currently looking to hire more Senior Android Engineers, and I wanted to tell you some of the best reasons to consider a position here.

As a Senior Android Engineer at Meta (Facebook) you would collaborate with some of the world's most talented engineers to build products that impact billions of people. In fact, over 45% of the global population uses a Meta service on a monthly basis! Also, our team selection process is candidate driven, and allows you to find the team that best aligns with your interests and where you feel like you can make the most impact.

If you're interested in learning more, please let me know when you would be available for a 30-40 minute exploratory chat. If this is not the best time for you to consider a job switch, just let me know what timeframe may work better, and I can follow up then.

Thanks for your time, I look forward to hearing from you!

[redacted]
Technical Recruiter at Meta (Facebook)

WORK EXPERIENCE AND DUTIES

- (June/2013 – June/2014) Full Time **Upper Egypt for computer systems (UCS). (Android native development).**
 - **Duties:** Reporting to senior android developer and responsible for connecting the intelligent search engine to android application and website.
- (June/2014 – June/2015) Part Time **Upper Egypt for computer systems (UCS). (Android native development).**
 - **Duties:** Reporting to senior android developer and responsible for connecting the intelligent search engine to android application and website.
 - **Reason to leave:** Relocate to another city.
- (June/2015 – May/2016) Full Time **Intellisc Subsidiary of i-Soft. (IBM Worklight and JavaScript with Backbone, Angular-JS and android native with Wearable Devices) (Mobile Software Developer).**
 - Work inner **Etisalat Company** as **outsourc** (from **1/2/2016** to **1/5/2016**).
 - ✓ **Duties:** Reporting to senior software engineer and teamleader. Responsible for 2 projects **RTA (Drivers and Vehicles)** for

Dubai government and **Etisalat WiFi “Saytar”** telecom. Company and for Full front-end development and some back-end development plus some user interface.

 - **Duties:** Reporting to CEO. Responsible for 3 projects **SA Travel and Tour, SA Training Solution and Malek Travel.** Built them from scratch. Full front-end development and some back-end development and user interface.
 - **Reason to leave:** Company relocate to another city.
 - (September/2017 – September/2018) Freelance **gTool. (Senior Android Developer).**
 - **Duties:** Reporting to CEO. Responsible for 2 project **gTool (App), gTool DRS (Embedded System).** Built them from scratch. Full front-end
-

development and some back-end development and user interface. And Contains some **C Language Code**.

- **Awards:**
 - ✓ (March-2018): **Prize: Samsung S9+**
 - **Reason to leave:** Company sold to other Germany company.
-
- (June/2018 – March/2019) Full Time **Paycode**. (**Senior Android Developer**).
 - **Duties:** Reporting to Developer Manger. Responsible for 2 project **Resci (App), Matching Fingerprint (Desktop App), Fingerprint Converter (Desktop App)**. Built them from scratch. Full front-end development and user interface.
 - **Reason to leave:** Contract end and got another contract before they asking to renew.

 - (February/2019 – September /2019) Full Time **Algo Technologies**. (**Senior Android Developer**) - Senior DTSE (Developer Technical Support Engineer).
 - **Duties:** Reporting to Developer Manger. Responsible for 8 projects **Movver Task (Android/ IOS App), Movver Drive (Android only App), Movver Drive Plus (Android only App), Movver Launcher (Android only App), Movver Warehouse (Android only App), Movver Transit (Android only App), Puls Trac (Android only App)**.
 - **Reason to leave:** Company relocate to another country.

 - (February/2020 – until now) Full Time **Huawei Technologies by Blu**. (**Senior Android Developer**) - Senior DTSE (Developer Technical Support Engineer).
 - **Duties:** Reporting to Manger.
 - Responsible for Serving more than **100+ CP (companies) - (Local in SA and International) and individuals to integrate with HMS** (Huawei Mobile Service) big companies and small companies (Like Media 24, Standard Bank, Takealot, Discovery, ...etc.).
 - Helping CP if they got any issues while they integrate with HMS, issues related and not related to HMS.
 - **Building solutions** to solve issues that **it's not available in HMS** services yet like Youtube, GMS Popup issue and.... etc.
 - Also responsible for **Findorra** Project built it from scratch within **3 months** built (**Backend, Mobile App, Dashboard controller and**
-

website, Full front-end and user interface design) developed the whole project no assistants from other developer

- ✓ Reach **2M+ installation in 16 months** with no lake in backend server (Server built in **Node js**) reach **28.4+ Million user app view in 16 months** and **32.06+ million app. downloads.**
- ✓ Support Mobile and Tablet and Dark mode.
- Create at least more than 60+ Quick app.
- Judging in **Competition App Up for 3 years** combined with **MTN competition (App of the year).**

- Integrate **Findorra** with **Patel Search.**

- Created **Findorra** separate branch for **Iraq** country. (Iraq.findorra.com)
- Created **Findorra** separate branch for **UAE** country. (appfinder.fun)
- Created **Findorra** separate branch for **EG** country. (appfinder.online)
- Created **Findorra** separate branch for **KSA** country. (appsearch.info)
 - ✓ Findorra Server SA only (**Total Bandwidth**) in 30 days only **178.98TB.**

- **Wrote more than 6+ articles** in issues that encountered it when you integrate with **HMS** and how to solve these issues.

- Also responsible for **building campaigns** built 5 campaigns reached **100k+ user in 3 days** plus I have built system campaign to auto generate campaigns.

- Speaker at **Huawei Mobile Services** hosts developer training workshop showcasing app revenue generating methods:
 - ✓ Article: <https://shlnk.co/u/huawei-training-workshop-showcasing>

EDUCATION

College: ❖ Faculty of Computers and Information, Cairo University

- Computer Science (CS) Major
- Information System (IS) Minor

Graduated Year: Summer 2013

Graduation Project Grade: A+

- Bachelor of Science Degree (B.Sc.) in Computer and Information from Cairo, Egypt (2013).
-

TECHNICAL SKILLS

▪ Languages	Android, IOS, Swift 3, Kotlin, React Native, Java SE, Java EE, Angular-JS v.1, JavaScript, Laravel, PHP, Sails js, Node js, XML, CSS, JSON, C, C++, python.
▪ Design (UX/UI)	Photoshop, Illustrator
▪ Database	SQL Server, PostgreSQL, MySQL, Oracle DB, SQLite.
▪ Frameworks	JavaScript Frameworks: Angular-JS, Backbone-JS, Bootstrap, Sails js, Node js.
▪ Operating Systems	Windows, Linux.
▪ Version Control Systems	SVN and Git. (Bitbucket, Github, Dev Azure).
▪ Issue & Project Tracking	JIRA.
▪ Graphic tools	Photoshop, Illustrator.
▪ Collaborative Enterprise modelling tool	Power Designer.
▪ Third party libraries	Android libraries: Firebase, Retrofit 2, Volley, recyclerview, actionbarsherlock, facebook SDK, nispok-snackbar, android-support-v7, android-maps-utils, glide, play-services-analytics, Zxing for (Qr-code and barcode), GMS, HMS, etc.... ➤ JavaScript libraries: jQuery, Cordova, React Native.
▪ Tools & Technologies	Android Studio, XCode, IBM Worklight Studio
▪ Remote Data	REST, Soup with JSON and XML
▪ SDKs	Android SDK, Facebook SDK, Armada (T3, CT200), SAFRAN (Morpho) Biometrics.

LANGUAGES

- English: Very Good
- Arabic: Mother language

PERSONAL SKILLS

- Organizational Skills
- Team Leadership
- Giving Presentations
- Good in problem-solving skills
- Have ability to research and learn new technologies
